Gratia Gamage

Senior Software Consultant | IFS ERP

Sri Lanka | +94 76 832 7047 | gratia12@gmail.com

PROFESSIONAL PROFILE

Senior Software Consultant specializing in IFS Cloud and IFS Applications technical delivery. Experience spans IFS Apps 9 and 10, IFS Cloud and Aurena, technical customizations and configuration, PL/SQL development, integrations, lobby and report solutions, workflow automation, and data migration. Work across the delivery lifecycle: requirements analysis, technical investigation and design, implementation, and functional, integration, and regression testing. Background in software quality, release coordination, root-cause analysis, documentation, customer support, and international cross-functional delivery.

PROFESSIONAL EXPERIENCE

Senior Software Consultant

Jun 2025 - Present

Iconique

Contribute to IFS Cloud development and customer-specific enhancements across internal ICAM, Toolkit, and DSTG projects.

- **Toolkit:** Develop entity-based extraction templates and improve template application state, including persistence across visits and correct handling of views shared by multiple templates. Improve extraction quality and resilience through CSV sanitization, empty-result handling, time-only value conversion, and fixes for packed attribute data.
- **DSTG:** Deliver IFS shop-order receiving and warehouse workflow enhancements, including manual receipt behavior, material and lot/aspect handling, receipt completion rules, and warehouse action and shipment pick-list reporting. Investigate and validate custom behavior against the DSTG reproduction environment.
- **ICAM:** Contribute to IFS aviation supply chain integration with CAMO, including serial and part-number message flows, parts and tooling integration, and kit data migration. Perform developer analysis and manual testing for inventory updates, condition-code handling, Tool Manager Lobby workflows, and material requisition pick lists.

IFS Technical Consultant

Nov 2023 - May 2025

Bitzify, Kandy

- Supported Anthesis UK with IFS customizations and configurations, data migrations, report handling, lobby pages, Business Flow Automation, custom events, event actions, and scheduled tasks.
- Handled support issues for international customers and contributed to IFS Cloud enhancements across supply chain, finance, and purchasing for Tech Mahindra India.

Software Quality Assurance Engineer

Oct 2020 - Oct 2023

IFS, Colombo

- Created test strategies, test plans, estimates, and test cases; maintained regression coverage using Test-A-Rest and Katalon Studio.
- Coordinated App 10 product releases and contributed to technical design, development, support issue resolution, root-cause analysis, and shift-left testing.

Software Quality Assurance Engineer - Freelancer

May 2023 - Dec 2024

FNT Portal

Performed manual testing of a retail product and documented defects with clear reproduction details before production release.

Software Engineering Trainee

Jul 2018 - Jul 2019

hSenid Mobile Solutions (Pvt) Ltd, Colombo

Prepared UAT materials, test plans, and test cases; performed functional, regression, performance, integration, backend, UI, and compatibility testing. Also contributed to Java and Spring Boot feature development and support.
